PERS Board adopts new assumed rate of return on investments

Every year since PERS began investing in equity markets (August 1980), we have aimed for (and, largely, reached or surpassed) a target of 8 percent in investment returns. In fact, our annualized return since that time is 9.2 percent. However, with the continued volatility in the markets, predictions that the returns of the past will not be repeated, and in conjunction with our biennial experience study, PERS has reduced its assumed long-term rate of return to 7.75 percent.

What is a rate of return?

Rate of return measures investment performance. In other words, the gain or loss on an investment over a specified period, expressed as a percentage increase or

decrease over the initial investment. As with the economy, the actual return on a year-to-year basis will fluctuate; therefore, we focus on how the plan is performing on a long-term basis rather than on a particular year.

PERS has experienced above-average returns in six of the past 10 fiscal years (see chart on page 4). Though our rate of return for FY 2015 is 3.4 percent, our five-year annualized return is 11.9 percent and our 30-year annualized return is 8.9 percent.

The *assumed rate of return* is the rate we anticipate we will earn on investments over time. This is one of the most significant assumptions in the annual actuarial valuation process, as it is used to discount the expected benefit

New Rate of Return continued on page 4

2016 Benefit Payment Schedule ...	page 6

Important notice about your IRS 1099-R

In late January, PERS mailed an Internal Revenue Service (IRS) Form 1099-R to each retiree and beneficiary who received benefits in 2015. Recipients of this form should be aware of two issues with the form before filing taxes.

Distribution Code(s) - Codes listed in Box 7 of the 1099-R identify the type of benefit paid to PERS retirees. Approximately 2,950 recipients were inadvertently mailed a 1099-R with a distribution code of "1" where the code should have read "2". PERS identified those individuals and mailed each applicable person a corrected 1099-R. The incorrect information **has not** and **will not** be reported to the IRS.

Payer's Federal Identification Number - The number printed in this box is specific to each retirement plan PERS administers and should be nine digits in length. However, some recipients may see an eight-digit number in the box. The complete nine-digit number for each plan is listed below and should be used when filing taxes.

PERS - 64-6001557	MRS - 64-0746030
MHSPRS - 64-6176426	SLRP - 64-6190947

PERS regrets the inconvenience these misprints may have caused and assures all members, retirees, and beneficiaries that steps have been taken to ensure this will not happen in the future.

Understanding Your IRS Form 1099-R

Each January, PERS mails Internal Revenue Service (IRS) Form 1099-R to each retiree and beneficiary who received benefits the previous calendar year. To help retirees gain a better understanding of IRS Form 1099-R, important sections of the 2015 version of this form have been highlighted and explained in the sample below.

IRS Form 1099-R provides information on benefits paid and amounts withheld for federal income tax.

Gross distribution **1**

The total amount paid by PERS during 2015, including the Cost-of-Living-Adjustment (COLA) benefit, if applicable.

Taxable amount **2a**

The portion of the gross distribution amount considered taxable income and will always be equal to or less than the amount in Box 1.

Payer's Federal Identification Number

Payer's ID

The number specific to each retirement plan PERS administers. The complete nine-digit number for each plan is listed below and should be used when filing taxes.

PERS 64-6001557

MRS 64-0746030

MHSPRS 64-6176426

SLRP 64-6190947

Federal income tax withheld **4**

This is the total federal withholding for the year, including any amount withheld from COLA benefits.

Employee contributions/Designated Roth contributions or insurance premiums **5**

For PERS retirees, Box 5 does not relate to Roth contributions or insurance premiums. The amount printed is the difference in Box 1 and Box 2a and represents the after-tax contributions (pre-July 1, 1982) recovered tax free during the applicable calendar year and is not subject to tax.

Account Number **Acct No.**

To help you prepare your taxes, this box provides the amount withheld for payment of group health insurance premiums (HLTH). This information is not provided to the IRS. When itemizing deductions, use this figure for Schedule A (not the figure in Box 5).

A copy of the form should be included with federal income tax filings if any federal tax is withheld. PERS will report the same information to the IRS for each retiree who is sent a form.

The state of Mississippi does not tax retirement income; however, other states may tax retirement income. Retirees living in states where this income is taxed should file the appropriate 1099-R copy with state income tax returns.

7 Distribution code(s)

Applicable codes identifying the type of benefit paid for PERS retirees are as follows:

Code 2 Early distribution not subject to 10 percent penalty

Code 3 Disability retirement benefits paid to a retiree who has not met normal retirement age for the applicable plan

Code 4 Death

Code 7 Normal distribution for a retiree 59 1/2 or older at the end of 2015

PERS Board Updates

Benson

Benson re-elected

Lee County chancery clerk Bill H. Benson of Tupelo has been reelected to the PERS Board of Trustees.

At its October meeting, the Board certified election results between the incumbent, Benson, and Washington County tax assessor Mark K. Seard of

Greenville to be county employee representative on the Board. Benson's new term runs from January 2016 through December 2022.

Election held for public schools and community/junior college employee representative

The Board will certify election results at its February meeting for a new public schools and community/junior college employee representative.

Candidates for the post are Donna H. Boone, Quitman School District superintendent; Julia E. Brown, Holmes Community College director of human resources; incumbent Edward Lee Childress, Corinth School District superintendent; Billy W. Folkes, Lamar County School District director of student services; Timothy C. Lea, Copiah-Lincoln Community College director of veteran services; Vicky B. Shea, Tishomingo County School District teacher; and Darein C. Spann, Simpson County School District teacher.

The six-year term begins May 1, 2016, and will run through April 1, 2022.

Online self-service coming

PERS launched its new pension administration system in 2015, a tool that will, eventually, include online account access for members and retirees.

"We are pleased to be able to provide MyPERS, online account access, to those we serve," said PERS Executive Director Pat Robertson. "While we will still be here for anyone needing to call or visit us, the online features will provide an additional level of service so that members and retirees can find answers even outside of our regular business hours."

MyPERS, which is anticipated to launch in 2016, will include the following features:

Retirees

- Update federal tax withholding amount
- View benefit payment amount
- Sign up for direct deposit (a one-time only service for those retirees who receive paper checks)
- View IRS 1099-R form and, where applicable, Excess Benefit W2 form

Members

- View and update home address, phone number, e-mail address, and preferred contact method
- View beneficiaries, account balance, and statements
- Calculate benefits
- View, search, and enroll in training seminars
- Submit service requests to PERS

PERS has been collaborating with Sierra-Cedar, Inc. of Alpharetta, Georgia, since September 2010 to build and implement the new system using Oracle software.

Watch the PERS website for more details about when self-service will be available and how to access your PERS data.

payments for all active, inactive, and retired members. Minor changes in this assumption can have a major effect on valuation results. The investment return assumption reflects the expected return based on the asset allocation set by the PERS Board of Trustees.

Why the change in the assumed rate?

In conjunction with our biennial experience study in April 2015, the PERS Board approved the recommendation of our actuary, Cavanaugh Macdonald Consulting, LLC, to lower our assumed rate of return to 7.75 percent, primarily as a result of a decrease in the inflation assumption from 3.5 to 3 percent.

This decision was made with caution and prudence. A recent issue brief titled Public Pension Plan Investment Return Assumptions, published by the National Association of State Retirement Administrators, shows that 7.69 percent is the average rate for this assumption among the nation's largest public retirement systems (PERS currently ranks as the 69th largest pension plan in the U.S.).

Also in conjunction with the experience study, changes were made to the demographic assumptions (i.e., withdrawals, mortality rates, disability rates, salary scales, etc.), and the wage inflation assumption (i.e., how much salaries are expected to increase) was decreased from 4.25 percent to 3.75 percent.

What difference will these changes make?

We review the economic and demographic assumptions and make changes to our demographic assumptions on a regular basis so that PERS does not incur large gains or losses at any one time. While these changes are necessary from a prudent management perspective, they also affect our numbers.

From an administrative perspective, the demographic changes will be implemented July 1, 2016, and were factored into the FY 2015 actuarial valuation, which affected our unfunded accrued liability (UAL) and funding ratio. Our UAL for FY 2015 is \$16 billion, and our funded status is 60 percent. However, despite these changes, PERS is projected to meet our funding policy goal of 80 percent by 2042, which shows that the decisions and adjustments we make now are best for the overall health of the System.

POPULAR ANNUAL FINANCIAL REPORT

As of June 30, 2015

WORKING TOGETHER

Years of initiative. Decades of good stewardship.

*A Letter From
Executive Director
Pat Robertson
December 15, 2015*

Dear Members and Retirees:

It is my privilege to present the 2015 "Popular Annual Financial Report" of the Public Employees' Retirement System (System), and I am pleased to continue the tradition of years of initiative and decades of good stewardship provided to our participants. Since its inception in 1952, the System has pursued its mission to provide good stewardship of the public trust placed in us to

provide a secure retirement future for almost 300,000 members and nearly 100,000 retirees and beneficiaries across the state of Mississippi. Our accomplishments over the years are due to the competence and expertise of our employees, our initiatives to address the opportunities and challenges we face, and our continued commitment to quality customer service.

This report is a summary of our services, organization, financial results, and investments, which are reported in detail in the PERS Comprehensive Annual Financial Report (CAFR) for 2015. The CAFR is prepared and presented in conformity with generally accepted accounting principles. The Flexible Benefit Cafeteria Plan, an agency fund related to the System's employee

health benefits, has been omitted from our summary due to its immateriality. The summary report also contains abbreviated note disclosures.

Detailed information about the System can be found in the CAFR located at www.pers.ms.gov. For questions concerning any of the information presented in this report, contact the Public Employees' Retirement System of Mississippi, 429 Mississippi Street, Jackson, Mississippi 39201-1005 or visit us online.

Sincerely,

MEMBERSHIP

The System administers four defined benefit retirement plans that guarantee a specified retirement payment beginning at a certain age and after a specified period of service according to each plan's provisions. The plans included in the System are the Public Employees' Retirement System of Mississippi (PERS), the Mississippi Highway Safety Patrol Retirement System (MHSPRS), the Municipal Retirement Systems and Fire and Police Disability and Relief Funds (MRS), and the Supplemental Legislative Retirement Plan (SLRP). These plans serve members from state and local government, public schools, community and junior colleges, universities, and other governmental units across the state. The total number of active members has changed from 162,392 in fiscal year 2011 to a current count of 157,918 with a total of 887 participating employers.

The System is constantly seeking innovative ways to serve its members and receives high marks for its efforts to provide quality assistance to each member and employer.

We are proud of our contribution to helping provide retirement security for our retirees. Since 2011, the total number of inactive and retired members has grown from 215,490 to 236,232, with a current annual retirement benefit payroll of \$2.3 billion. A combination of advances in technology, staff training, and improved vehicles of communication enables the System to assure that its participants are well informed and well served. The charts on page 3 illustrate active members, retirees and beneficiaries, and inactive members participating in the plans. Total membership in the System is 394,150. This is a 4.3 percent increase since fiscal year 2011.

Currently eligible for retirement are an estimated 21,277 PERS, MHSPRS, and SLRP members.

Membership in the System is a condition of covered public employment in Mississippi. Membership in MRS was closed as of July 1, 1976. Two fire and police plans elected to extend the eligibility period for membership to July 1, 1987.

Employees hired after MRS closing periods automatically become members of PERS. SLRP is a supplemental plan to the provisions of PERS for members of the state Legislature. Those elected after July 1, 1989, automatically become members.

PERS HONES POLICY AND STRUCTURE THROUGH TOUGH ECONOMIC TIMES

Despite The Great Recession looming over the country from late-2007 to mid-2009, PERS stayed focused on keeping the plan strong. Efforts were made from 2005 to 2015 to strengthen board governance, policy, board regulations, and IRS compliance. In 2012, PERS revised its funding policy and set a goal to be at least 80 percent funded by 2042.

FINANCIAL

The summaries of assets and liabilities show how much the System holds in resources and how much is owed. Total fiscal year 2015 Assets and Liabilities were \$30.2 billion and \$4.8 billion, respectively as displayed on page 5. Net position of the defined benefit pension plans for 2015 totaled \$25.4 billion while 2014 net position totaled \$25.4 billion. Investments make up the largest portion of net position restricted for pension benefits. Net position results from the difference between total assets and total liabilities. The chart below illustrates the overall trend in net position over a five-year period. Net position represents the net assets accumulated to pay the present and future benefits of members and retirees.

The three primary sources of System funding are employer contributions, member contributions, and net

investment income. Employer contributions totaled \$1.0 billion for fiscal year 2015, an increase of \$26.0 million from fiscal year 2014. Member contributions totaled \$560.1 million, an increase of \$8.3 million from fiscal year 2014. The System posted net investment income of \$844 million for 2015, compared to \$4.0 billion for 2014. The decrease was primarily due to volatile market conditions as evidenced by a point-in-time investment rate of return of 3.4 percent for fiscal year 2015 compared to an 18.6 percent rate of return for fiscal year 2014.

The System's primary expenses include benefit payments, refunds of contributions to former members, and the cost of administering the System. As shown on page 5 in the bottom table, the majority of 2015 expenses

were benefit payments, which totaled \$2.3 billion and were an increase of \$119.9 million from 2014 due primarily to an increase in benefit recipients. Contribution refunds were \$119.6 million for fiscal year 2015, compared to \$121.6 million for fiscal year 2014. The cost to administer the System for fiscal year 2015 was \$14.7 million, \$458 thousand more than fiscal year 2014. Expenses for administration of the System are funded from the trust.

The System adopted GASB Statement No. 67 for the year ending June 30, 2014. This statement requires presentation of components of the net pension liability of the employers to plan members for benefits provided through cost-sharing and single employers. GASB Statement 67 is an accounting measure of liability and does not correspond to funding measures.

PERS VALUES PUTTING THE CUSTOMER FIRST

Focusing on the service provided to members, retirees, and employers, PERS established the Call Center, the Retirement Education program, and a personal approach to serving the customer. PERS also implemented a two-phased retirement process to ensure members issued an estimate of benefits before selecting benefit options.

■ UAAL Period (in years)
■ Percent Funded

PERS

MHSPRS

MRS*

SLRP

* As of September 30 for 2011-2012; June 30 for 2013 and forward

Actuarial valuations are performed on an annual basis for all defined benefit plans administered by the System. Valuations are based on information as of June 30, 2015.

Funds are accumulated to meet future benefit payments to retirees and beneficiaries. This accumulated balance is referred to as the "net position restricted for pensions." The unfunded actuarial accrued liability (UAAL) amortization period graphs shown at left depict the anticipated UAAL period for each plan within the System. In general terms, the UAAL is the difference between benefit payments owed to current and future retirees and beneficiaries and the amount of assets held by the System. The UAAL amortization period is the number of years it would take to completely pay the System's projected benefit obligation. The funded ratio (as shown in the charts to the left) represents the amount of the System's actuarial accrued liability that is covered by the actuarial value of assets, expressed as a percentage.

The charts at left show the UAAL period and percent funded for the last five fiscal years for each plan. PERS experienced a decrease in the funded ratio while MHSPRS remained the same. The charts show increases for MRS and SLRP in the percent funded for 2015. Variations are primarily due to changes in the individual plan's actuarial assumptions, the most significant of which was the change in the assumed rate of return on investments from 8.0 percent to a more conservative 7.75 percent return. Variations are also affected by actuarial gains and losses from prior years. Investment gains and losses relative to the assumed rate of return of 8.0 percent are recognized, or smoothed, in equal increments in the current year and each of the succeeding four years. PERS investments are diversified to help mitigate the effects of a volatile financial market and a fragile economy.

Based on the Board's funding policy, employer contribution rates of 15.75 percent for PERS, 37.0 percent for MHSPRS, and 7.4 percent for SLRP continue in effect. In addition, the contribution of certain fees was increased toward employer contributions of the MHSPRS. Employee contributions remain constant at 9.0 percent for PERS, 7.25 percent for MHSPRS, and 3.0 percent for SLRP.

Member and employer contribution rates vary among the individual municipalities of MRS.

Employer Contribution Percentage Rates

INVESTMENTS

The System manages investments with prudent care, constant attention, specialized expertise, and a concern for the financial security of its membership. By maintaining a broadly diversified portfolio designed to minimize risk and maximize return over the long term, the System's investment program is designed to help provide funding for current and future pension obligations.

Investments before securities lending activities for 2015 were \$24.7 billion, an increase of \$135 million from fiscal year 2014. Net investment income was \$845 million compared to \$4.0 billion at fiscal year end 2014.

One of the most critical decisions made by the System is that of the long-term asset allocation policy for the investment portfolio. In fiscal year 2015, the target asset allocation was 61.0 percent equities, 20.0 percent debt securities, and 10.0 percent real estate investments. Private equity was 8.0 percent. Cash and equivalents were 1.0 percent. The System's asset allocation decisions are based on liability requirements and guidelines established by the Mississippi Code of 1972. At year end, 40 investment firms were managing 53 portfolios for defined benefit pension plans. Portfolio performance is carefully monitored by the Board of Trustees with the assistance of an investment management consulting firm and the System's chief investment officer.

The System experienced a 3.4 percent investment return this year, which was less than the plan's benchmark return of 3.7 percent. The System operates on a long-term investment strategy resulting in a five-year rate of return of 11.9 percent, 10-year rate of 6.9 percent, and a 30-year rate of 8.9 percent.

Large Public Plans: Annualized Rates of Return

PERS BUILDS ON ITS INITIAL SUCCESS

As it matured as a plan, PERS began equity investments in 1980 and expanded fixed income investment options with the hiring of external investment managers in 1983. Mississippi Deferred Compensation Plan & Trust came under the administration of PERS in 1974 and, in 1987, PERS became responsible for the management of 17 firemen's and policemen's disability and relief funds—along with two general municipal employee retirement systems.

FRED M. WALKER (1972-1989)

EXECUTIVE
SECRETARY

RESOURCES

Website and Call Center

Our website, www.pers.ms.gov, provides an array of information and services to members, retirees, and the public.

PERS' Customer Service Center

analysts assist callers with questions and concerns in a prompt, courteous manner. The center, 800-444-7377 or 601-359-3589, is open from 8 a.m. to 5 p.m. every weekday with the exception of state holidays.

Education Opportunities

Full-day **Retirement Education Seminars** are held throughout the state to assist members with retirement planning. Topics include Social Security, Mississippi Deferred Compensation (MDC), and PERS. Schedules and registration are available online.

Small group **Focus Sessions** assist members with retirement planning by providing each individual with

an estimate of benefits and detailed information on retirement options. Schedules and registration are available online.

Hosted by employers, **PERS on the Move seminars** are held during or after office hours to provide members with information regarding PERS and MDC. Visit us online to request a seminar.

Annual **agency training seminars** provide information to personnel responsible for benefits administration and reporting. Schedules, topics, and registration are posted online.

Printed Materials

Active and inactive members are mailed **annual statements** with account balances, designated beneficiaries, and unaudited estimates of benefits and years of service.

Our member, retiree, and employer **newsletters** provide pertinent

information to constituents about their retirement plans and System. Electronic versions of the newsletters are available online. Audio versions are available through the National Federation of the Blind of Mississippi.

Member Handbooks

include information about PERS, its administered programs, retirement benefits, retirement options, and important contact

information. Handbooks are available by request or can be downloaded from the PERS' website.

Award-Winning Report

The Government Finance Officers Association of the United States and Canada (GFOA) has given an Award for Outstanding Achievement in Popular

Annual Financial Reporting to PERS for its Popular Annual Financial Report for the fiscal year ended June 30, 2014. The Award for Outstanding Achievement in Popular Annual Financial Reporting is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government popular reports.

In order to receive an Award for Outstanding Achievement in Popular Annual Financial Reporting, a government unit must publish a popular annual financial report with contents that conform to program standards of creativity, presentation, understandability, and reader appeal.

An Award for Outstanding Achievement in Popular Annual Financial Reporting is valid for a period of only one year. PERS has received a Popular Award for the last 12 consecutive fiscal years. We believe our current report continues to conform to the Popular Annual Financial Reporting requirements, and we are submitting it to GFOA.

PERS CREATES A NEW STATE RETIREMENT SYSTEM

In 1952, Mississippi's retirement system for public employees was established and the administrative structure was built from the ground up. The first offices opened in the Woolfolk Building (and later moved to the Sillers Building) with a staff of about 20 who had never before run a retirement system. Within approximately six months, they had enrolled more than 95 percent (45,288) of the public employees eligible to participate in the plan.

WILLIAM R. HOUGH
(1952-1971)
EXECUTIVE SECRETARY

2016 Legislative Agenda/2015 Legislative Summary

The 2016 Legislative session is underway at the Capitol, and the PERS Board plans to introduce legislation this year for technical corrections, vesting, and deferred compensation.

The **technical corrections** bill is a housekeeping bill that will provide clarification to the PERS laws and update the statute to reflect current PERS regulations and federal laws. This bill will not affect those who are currently retired. PERS has attempted to pass the technical corrections bill since 2012.

If passed, the **vesting** legislation would change vesting requirements from eight years to four years for all PERS members, both active and inactive. This legislation is in response to employers who believe the eight-year vesting period hinders employee recruitment and retention. This change was encouraged by Governor Barbour's 2011 PERS Study Commission as a way to encourage individuals to seek public employment. A shorter vesting period will make it easier to recruit retired teachers from across state lines for Mississippi public school districts that are facing teacher shortages. PERS actuaries have shown that the cost would be minimal to the System.

The **deferred compensation** legislation would update the statute to reflect modern investment options and will have very little affect on the participants.

To track all PERS-related legislation this session, visit the [PERS-Related Legislation page](#) online for links to the full bills.

2015 Legislative Summary

House Bill 825 - Approved by Governor March 31

Personal Service Contract Review Board:

- Revised the process of awarding contracts for all state agencies

House Bill 1512 - Approved by Governor April 9
Administration and Operation PERS: FY 2016 (Budget) Bill

House Bill 1127 - Approved by Governor April 23

Iran Divestment Act of 2015:

- Prohibited PERS and the state Treasurer from investing with persons engaged in investment activities in Iran under certain circumstances with limited exceptions

2016 Benefits Schedule

Direct Deposit

February 1 (Monday)
March 1 (Tuesday)
April 1 (Friday)
May 2 (Monday)
June 1 (Wednesday)
July 1 (Friday)
August 1 (Monday)
September 1 (Thursday)
October 3 (Monday)
November 1 (Tuesday)
December 1 (Thursday)
December 15 (Thursday) COLA*

Mailed Check

January 29 (Friday)
February 29 (Monday)
March 31 (Thursday)
April 29 (Friday)
May 31 (Tuesday)
June 30 (Thursday)
July 29 (Friday)
August 31 (Wednesday)
September 30 (Friday)
October 31 (Monday)
November 30 (Wednesday)
December 14 (Wednesday) COLA*

Any retiree wanting the convenience and timeliness of direct deposit of his or her benefits on the first banking day of each month may submit a completed PERS Form 21, *Direct Deposit Authorization*, to PERS. Mailed checks will continue for one to two months after submitting the form.

* *Cost-of-Living Adjustment check for eligible recipients*

Sign up for direct deposit of monthly benefits

Enjoy the convenience and timeliness of direct deposit of your benefits on the first banking day of each month by submitting a completed PERS Form 21, *Direct Deposit Authorization*, to PERS. Your check by mail will continue for one to two months after submitting the form. You can find this form on our online [Forms](#) page.

Updating federal tax withholdings from your benefit

To make changes to monthly benefit tax withholding status any time during the year, complete and submit Form 17, *Certificate of Withholding Preference*, which may be obtained from the PERS website or by contacting PERS.

In the absence of previously submitted tax withholding information, PERS automatically withholds taxes based on a status of married with three withholding exemptions.

Keep your account information up to date

Keeping PERS up to date with changes to your name, address, and/or spouse and beneficiary information, will allow us to provide you with the most efficient service possible, including timely delivery of your PERS newsletter, issuance of your annual IRS Form 1099-R each January, and any other mail out from your retirement system.

For the protection of our retirees and members, PERS does not accept a change of address or change of beneficiary over the telephone. To make a change to your account, submit a completed PERS Form 1C, *Change of Information*, which can be found on our online [Forms](#) page.

The image displays three PERS forms. The top form is the 'Certificate of Withholding Preference' (Form 17 - Revised 12/1/2013). Below it is the 'Direct Deposit Authorization' (Form 21 - Revised 12/1/2013). The bottom form is the 'Change of Information' (Form 1C - Revised 12/1/2013). Each form includes sections for personal information, contact details, and specific authorization or change information. The forms are presented as if they are being cut out with scissors.

Retiree Organizations

Now that you are retired from covered employment, you may want to stay in touch with your fellow retirees. Below are two retiree organizations in Mississippi that provide such opportunities for staying active and alert to issues that affect PERS retirees.

Mississippi Retired Public Employees' Association (MRPEA)

MRPEA promotes the health, well-being, quality of life, and financial interests of members and retirees of PERS. This organization is open to both active PERS members and to all PERS retirees.
www.mrpea.org

Retired Education Personnel of Mississippi (REPM)
REPM serves the interests of retired education personnel in the state.
www.msrep.org

Pictured Below: MRPEA directors attend the organization's Board of Directors meeting January 11 in Madison and hear updates about PERS from Executive Director Pat Robertson (at the podium). Pictured in the foreground is Curt Thompson, former executive director of the Mississippi Department of Employment Security, and at right is former Rankin County Administrator J.K. Stringer.

PEER releases report on PERS

The Joint Legislative Committee on Performance Evaluation and Expenditure Review (PEER Committee) authorized December 15, the release of the report entitled *The Public Employees' Retirement System: 2015 Update on Financial Soundness, Delays in Application Processing, and Legal Issues*.

The report includes an update on PERS' financial performance and projected funding levels, as well as a review of recent delays in the processing of PERS members' applications for service retirement benefits.

To view the report, visit www.peer.state.ms.us.

Thinking of returning to work?

PERS has created a new guide for retirees who are considering returning to work with a PERS-covered employer.

From specifics about the mandatory 90-day break in service to details about holding local elected positions while retired, this guide provides answers to some of the most frequently asked questions about returning to work.
